SANTAQUIN UT 84655

Dear Messrs. Steele:

On October 26, 1999, a surface compliance inspection was conducted at the site of your Cove Travertine Mine located in the NW¼ of Section 5, T. 25 S., R 7 W. Your Notice to conduct exploration on the site was accepted on August 11, 1998, but the inspection revealed that no surface disturbance has yet taken place.

On October 7, 1998, you were informed that you had established a Record of Noncompliance, and that any further activity you conduct under the 43 CFR 3809 Surface Management regulations would require an approved Plan of Operations (Plan) and a reclamation bond. You have not yet submitted a Plan for the Cove Travertine project.

If you do not submit a Plan within 30 days of receipt of this letter, we will consider the project abandoned, and close the case file. Proceeding with the operation by you or any other operator without an approved Plan and a bond will result in the issuance of a Notice of Noncompliance, and possible criminal charges.

If you have any questions, please feel free to contact me at (435)743-3126.

Sincerely,

Ron Teseneer
Geologist
